F_1 Hybrid Grandiflora **CALYPSO**

Porter - Walton Co.
P.O. Box 1619 Salt Lake City 10, Utah

Modern Flower Seeds

ALL THE NEW OUTSTANDING POPULAR VARIETIES

ANNUALS and PERENNIALS

GENEROUS QUANTITY DISCOUNTS

You start earning profits immediately when you order all your flower seeds from PORTER-WALTON COMPANY.

The following discounts for quantity orders are in addition to the 2% cash discount. Charge orders must be paid by the 10th of the following month to earn either discount:

Order Under		25.00 - - - - - -	2%
"	25.01 to	$100.00 - - - - - -	8%
"	100.01 to	250.00 - - - - - -	11%
"	250.00 to	499.00 - - - - - -	15%
"	500.00 to	1000.00 - - - - - -	20%

For greater marketability and profits, plant vigorous F₁ Hybrid Petunia varieties in NEW plantable GRO POTS. Grown and marketed in colorful plastic trays, these popular flowers build customer satisfaction and greater sales.

F₁ Hybrid Petunias have almost completely replaced the older open pollinated varieties in spite of the great difference in original seed cost. Reduced to the dozen plants level seed costs only 2¢ to 8¢ per dozen. So you don't have to add much to the selling price to double your investment in seed.

In addition, the advantages of better germination, vigor and uniformity add up to more and better plants in less time.

Equally important is the fact that customers like them - demand them.

Popular Petunias

285,000 Seeds per Ounce

F1 HYBRID GRANDIFLORA

WHITE

LA PALOMA - Pure white, yellow throat. The best fringed white. Price Code B.

SNOW MAGIC - Large shimmering white, 3½-4" flowers on a plant slightly taller than White Magic. Early blooming, free flowering. Price Code B.

WHITE MAGIC - Larger and plainer flower than La Paloma. Very free flowering. Best all around white. Price Code B.

PINK (light to dark)

CHIFFON - Similar to Pink Magic, but its color fades in summer. Special order only. Price Code B.

MAESTRO - Deep rose red - Extra large ruffled flowers. Price Code B.

MAYTIME - Best of light salmon - We consider this one of our best varieties. Price Code B.

PINK LACE - A new shade in the lace patterned Petunias. Gracefully veined in shades of pink. Price Code B.

PINK MAGIC - Very good. Plain edged slightly ruffled. Celestial Rose color. Price Code B.

PRIMA DONNA IMPROVED, A.A.S - First choice in its class. Medium Salmon rose-pink, slightly fringed. Price Code B.

ROSE LUSTRE - Bright rose-pink. Similar in habit and large flower size to Blue Lustre and Scarlet Lustre. Price Code A.

SCARLET AND SALMON

BALLERINA, A.A.S. - Best medium salmon, fringed, veined throat. Price Code B.

SALMON LUSTRE - Large blooms of rich salmon-pink. Bushyplant habit. Price Code A.

SALMON MAGIC - New. A valuable addition to the Magic Series. A Profuse and early bloomer with 3½" flowers. Price Code B.

SCARLET LUSTRE - Like Fire Dance but better - Best in this color group. Price Code A.

TANGO IMPROVED - Scarlet salmon, deeply fringed. Light throat. Price Code B.

FIREDANCE - Bright orange scarlet, gold throat. Price Code B.

GRANDIFLORA

VARIEGATED

BINGO - See open pollinated varieties - Page 8.

CALYPSO - Best in this color. Scarlet and White variegated. Price Code B.

CAVALIER - Salmon and White variegated. Price Code B.

CRUSADER - Rose and White striped. Still the best of this color class. Price Code B.

SABRE DANCE IMPROVED - Deep Crimson with White Star. Good seller. Price Code B.

BLUES AND LAVENDERS

BLACK MAGIC - Rich violet blue with contrasting cream white stamens. We favor Black Magic over Serenade. Price Code B.

BLUE LACE - Best Orchid-blue with deeper veins. Price Code B.

BLUE MAGIC - The best deep blue. Admiral color, deep violet-blue. Price Code B.

BLUE LUSTRE - One of the finest clear violet blues. Prolific and good habit. Price Code A.

CAPRI - The first true blue F1 Hybrid Grandiflora. Compact free branching, early blooming with large flowers of a real blue color. Not a trace of violet to mar its beauty. Price Code B.

LAVENDER LACE - Best described as a Grandiflora Sugar Plum. Price Code B.

SKY MAGIC - New light heavenly blue with a silvery finish. Large flowered plain edged. Price Code B.

Cascades

PINK CASCADE Lovely clear bright rose pink with creamy throat. Huge flowers of excellent substance 4½ to 5 inches across. Vigorous basal branching plants that cascade from planters, still compact in beds. Earliest of all petunias.

WHITE CASCADE Pure shimmering white. Spectacular for size and number of flowers. Earliest of all white petunias.

RED CASCADE Big, startlingly red flowers, compact plants. Early bloom for added appeal. Truly spectacular for bold splashes of color. Already a hit. Bound to be a big seller.

FANDANGO

SUGAR DADDY

New additions of the world's finest F_1 Hybrid Petunias

FANDANGO Striking variegated blue and white. Extra large flowers 4 to 4½ inches, large enough to be classed with the Cascades and of similar good habit. Very free flowering. More uniform habit and color pattern than other varieties claimed similar.

SUGAR DADDY NEW 1963 Crop. Cascade type, extra large grandiflora. The color and stamina of the famous Sugar Plum, flowers 4 times as large. The Daddy of all plum colored petunias.

PINK LACE NEW 1963 Crop. Extra dwarf, compact fringed grandiflora. A lovely delicately colored companion to Blue Lace and Lavender Lace. Pale pink brightly veined warm rose pink. Excellent for pots and combinations. Distinctive! Charming!

CAPRI NEW 1963 Crop. Medium violet blue, the nearest yet to a true flag blue. Dwarf compact, similar to but earlier, larger, lighter color, better habit than the popular Blue Magic.

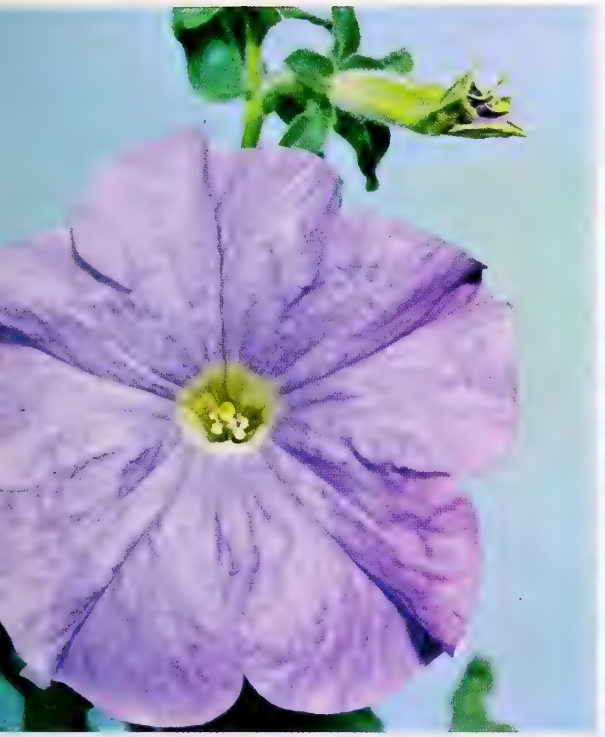
PINK LACE

CAPRI

NEW F_1 HYBRID PETUNIAS

CASCADE PETUNIAS A magnificent new strain combining tremendous size with remarkable earliness and excellent vigor and habit with striking colors. The Cascade petunias herald a break-through — a new era in petunia breeding. Not since our first F_1 hybrid grandiflora petunia Tango has such a distinctly new element been added to petunias. Although well adapted for any use, bedding, pots, combinations, the great selling appeal of these extra large, extra vigorous Cascade varieties is their special adaptation for planters, porch boxes and window boxes so popular now in well designed homes.

Pink Cascade, White Cascade, Red Cascade and Sugar Daddy are ready made for that featured spot in your catalog. The Cascade class will continue to provide you with new revenue as new varieties are added.



SKY MAGIC

SALMON MAGIC

SKY MAGIC NEW 1963 Crop. Pale violet blue, the nearest to sky blue possible in petunias. The first and only grandiflora petunia in this much sought color. Similar to White Magic in habit, size and freedom of bloom. Medium sized dwarf plain flowered grandiflora. Lovely, sure to sell.

SALMON MAGIC Mid salmon pink. Ballerina color. Dwarf, compact, free blooming as Magic series. Produces a profusion of large ruffled flowers of smooth medium salmon. Dwarf, compact habit. Ideal for pots, combinations and bedding.

THE MULTIFLORA DOUBLES

Five excellent new varieties in this old class of small flowered double petunias have created new popularity and new demand. With a near-complete color range, these rival the famous Pan-American Grandiflora doubles in popularity. Free blooming as the term multiflora implies, these sturdy beauties defy adverse weather even better than the singles. Soon to be offered in other separate colors, we offer a near complete color mixture for the first time this year. See next page for color pictures and descriptions.

HONEY BUNCH — DOUBLE

MULTIFLORA DOUBLE MIX

Multiflora Doubles

HONEY BUNCH Light salmon pink, Linda color. One of the very best most free blooming of the multi doubles. Excellent compact habit, flowers uniformly full double.

CHERRY TART Variegated bright rose pink and white. Extremely free blooming and long standing Cherry Tart is the leader in and the maker of this class of small double petunias. Sturdy compact plants. Easily, one of the most colorful petunias.

MULTI MIX All the above colors, plus PINK RICHES, WHITE RICHES and CARDINAL in formula mixture plus violet purple, light pink and a small percentage of a new violet purple and white and also a red and white.

PLUM DOUBLE NEW 1963 Crop. Imagine a double Sugar Plum and you have this new multiflora double with all the good habit, disease resistance and weather tolerance of the popular single. Sure to be popular.

CHERRY TART — DOUBLE

PLUM DOUBLE

F1 HYBRID MULTIFLORA

WHITE

PALEFACE, A.A.S. - First choice white. Gold throat, slightly ruffled. Price Code E.

WHITE SATIN - Second choice in whites. Smaller flower than Paleface but habit more compact. Price Code E.

CREAM

BRASS BAND - Best of deep creams. A very attractive shade. Medium size flowers. Price Code E.

PINK

PINK SATIN - First choice in rose pink class. Price Code E.

PINK SENSATION IMPROVED - Light clear rose-pink on a tall growing plant. Fine for cascading effect. Price Code E.

VENUS - Second choice in rose pink class. Dwarf, compact and spreading. Price Code E.

ROSE

CHEROKEE - Best in rose shade. Early and free flowering. Price Code E.

PINK VELVET - A beautiful rose-pink, very free flowering and slightly taller than Cherokee. Price Code E.

DEEP ROSE

INCA - Bright deep cerise rose with a gold throat. Price Code E.

RED or SCARLET

AZTEC - Orange scarlet with gold throat. Good in Mountain States. Price Code E.

COMANCHE, A.A.S. - Brilliant scarlet red. First choice in this color. Very popular. Price Code E.

MARS - Velvet crimson-red on a compact plant. Price Code E.

RED SATIN - A very popular bright red. Slightly more dwarf and compact than Comanche. Price Code E.

SALMON (Light to dark)

CORAL SATIN - Tops . . . Excellent color and habit. Price Code D.

DAWN SATIN - Similar to Linda. Light rosy pink. Price Code D.

LINDA - Very good. Equal to Dawn Satin in the lighter salmon-pink. Bushy, sturdy plants. Price Code E.

PEACH SATIN - Medium Salmon - good compact habit. Very floriferous. Price Code E.

SIOUX - Second choice in relation to Coral Satin. Intense salmon shading toward red at the throat. Price Code E.

MULTIFLORA

BLUE (light to dark)

MERCURY - The only light silver-blue. Good for this color. Price Code E.

NEPTUNE - The best dark blue. Medium violet. Price Code E.

MISCELLANEOUS MULTIFLORA

SUGAR PLUM - Orchid pink, pencilled and shaded rich orchid-purple. Very popular. Considered suprior to others of its color class. Price Code E.

VARIEGATED

COMET - Crimson with white star. Good. Price Code E.

POLARIS - Violet and white star - good compact habit. Price Code E.

SATELLITE - Brilliant rose with white star. Very free flowering. Price Code E.

MULTIFLORA MIXTURES

CONFETTI (F_2) - This second generation hybrid mixture brings extra vigor and extra floriferousness into the bedding Petunia class. A beautiful and complete color range. Excellent plant habit. PRICE CODE N.

POW WOW (F_1) - A formula blend of F_1 Indian named varieties. Colors are distinct and clear. The seed costs more than F_2 but it will produce superior plants and should make you more profit. Price Code E.

HYBRID VEGETABLE VARIETIES ARE MORE VIGOROUS

Would you like to earn more profit?

Then make your customers happy with new superior F1 Hybrid vegetable plants grown to larger than usual size in 3 or 4 inch peat GRO-POTS. In this attractive package you offer outstanding quality, planting convenience and more productive gardens. Well grown plants of F1 Hybrid Tomatoes, Cucumbers, and Watermelons can be sold for 25¢ each or more.

EARLY GIANT TOMATO, F1 Hybrid Tomato. This new F1 hybrid bears the largest fruit of any heavy cropping variety. The fruit is deep globe shape with a deep red color, thick walls and excellent flavor and interior texture. It bears over a long period of time. Has a wide range of adaptability.

1/4 OZ	1/2 OZ	1 OZ
7.50	14.00	25.00

BIG BOY, F1 Hybrid - Big Boy Tomatoes are perfectly smooth, deep globe-shaped fruits with thick walled meaty flesh of excellent flavor and quality. Many weigh one pound and more. Very large vigorous plants.

8.50	16.00	29.00

BIG EARLY, F1 Hybrid - The big bright scarlet fruits average nearly 1/2 pound. An outstanding tomato for slicing; the interior is deep red, firm, meaty and of excellent flavor.

8.50	16.00	29.00

CUCUMBER, EARLY SURE CROP, F1 Hybrid. This new disease-resistant slicing type Cucumber is an all-American medal winner. The vines are outstandingly vigorous with large protective leaves. Its resistance to mosaic and downy mildew keeps the vines alive and productive all season. The fruits are slender, 8-9" long, with blunt ends. The white crisp flesh is unusually delicious. Early Sure Crop holds its color well after picking.

1/2 OZ	1 OZ	1/4 LB	1 LB
2.50	4.50	14.00	40.00

WATERMELON, EARLY MIDGET, F1 Hybrid - Matures in 80 days after planting. This is the ideal ice-box size watermelon which is becoming more popular with home-gardeners. The fruit is nearly round with an average weight of 6 pounds. The vines have all the vigor typical of an F1 Hybrid. The productivity of these vines is very good. Superior in quality to other ice-box size watermelons.

LORAN BLOOD - Wilt resistant (85 Days) Fruits similar to Stone. Large deep red, smooth and firm. Globe-shape, deep stem basin. Developed for Intermountain conditions at Utah State. The vines are large, productive and resistant to verticilium wilt. .75 5.00 4.50

V.R. MOSCOW (70 Days) - Wilt-resistant Outstanding canner developed at Utah State College for Intermountain conditions. Highly resistant to verticilium wilt, prolific in both foliage and fruit. Moderately large, deep red fruits are smooth, thick-walled and of fine quality. .80 6.00 5.50

TUBEROUS ROOTED BEGONIAS

FINEST AMERICAN HYBRIDS

RUFFLED DOUBLE - Ballerina Type

This is an improved strain of Camellia Flowered Double. The colors are true and uniform; the flowers are ruffled and slightly frilled. Our strain produces a great number of large flowers with a long blooming period.

ROSE FORM DOUBLE

This is another improvement on the old camellia type. The petals are smooth and long, and with a very distinct center.

COLORS OF BOTH ABOVE TYPES:

Blush	Dark Salmon	Orange	Scarlet
Dark Red	White	Light Salmon	Rose
Yellow	Pink	Apricot	Crimson Rose
Red Salmon	Flame Orange	Cardinal Red

PEAT-POT STRIPS & TRAYS

Peat Pots molded in strips offer grower advantages. Planters handle twelve pots instead of one, saving time of preparation. Since all pots stand evenly in the tray, they receive water more uniformly. Trays are light and strong, making a convenient and attractive merchandising unit.

use Low Cost

WEST • PAKS and WEST • POTS

(of molded cellulose fiber)

for healthy plants and satisfied customers

Sturdy, inexpensive and *PROVEN*

West-PAKS—for the growing and marketing of bedding plants.

West-POTS—for the growing and/or marketing of annuals and perennials.

Western plant trays (West-PAKS) have been used successfully by many of the leading bedding plant growers of the Northwest, and now are finding new and increasing acceptance throughout the entire West. Western growing pots (West-POTS) in square and round shapes have caught on even more rapidly as they seem just right for many uses. Both West-PAKS and West-POTS are durable, easy to use containers that mean lower costs, less problems and improved marketing for growers everywhere.

PUT THESE ADVANTAGES TO WORK FOR YOU

ECONOMICAL TO USE

Much less expensive than other types of containers—in many cases cheaper to use than to re-use clay or plastic—plus light weight which reduces shipping and handling costs.

STURDY AND LONG LASTING

West-PAKS and West-POTS are strong and water-resistant, designed to last a full growing season — Plastic resins added for additional durability and wet strength.

GROWS HEALTHY PLANTS

Molded cellulose fiber plant containers are sterile—Breathe like clay—Specially treated to eliminate nitrogen absorption from the soil—Proper drainage assured.

MORE SALES APPEAL

Grower, dealer, gardener . . . all prefer easy-to-handle, disposable West-PAKS and West-POTS—their use means pre-packaged, modern merchandising of bedding plants, annuals and perennials.

THE RIGHT SIZE

West-PAKS are made to exactly fit flats used in the West. West-POTS are made in standard round and square sizes, plus additional sizes for special needs.

PERLITE, HORTICULTURAL

Perlite improves air and water penetration of soils, including clay and also improves drainage. Perlite retains three to four times its weight of water and does not become soggy. Use it for better starting of seeds and cuttings. In growing mixtures it insures health and productivity by encouraging a dense, more uniform root system.

SMITH FERTILIZER INJECTOR

To economically keep bedding plants or container grown nursery stock bright green and easily saleable, you need a SMITH MEASURE-MIX fertilizer injector. The MEASURE-MIX pumps plant food concentrates into the watering lines at a uniform rate. Each plant is fertilized automatically when you water.

The MEASURE-MIX INJECTOR is available in two sizes. The size you select should be determined by your water supply and the volume you use at any one time.

Prices listed below are for machines of standard construction and ratio setting. Custom construction to handle certain caustic insecticides can be furnished at additional cost.

	MAX FLOW	STANDARD RATIO SETTING	WEIGHT	F.O.B. CALIFORNIA
MODEL R-3				
3/4" Connection	12 GPM	1:100	75 Lbs.	

Your choice of check value assemblies and single or double injectors . . . $340.00 to $445.00.

MODEL R-8				
2" Connection	100 GPM	1:200	250 Lbs.	

Your choice of check value assemblies and single or double injectors . . . $850.00 to $1030.00.

Write or call for complete information and recommendations to meet your specific requirements.

MAKING FERTILIZER CONCENTRATES

FOR REGULAR FEEDING OF PLANTS IN CONTAINERS

The plant feeding concentrates given below are suggested for general use through "Measuremix" injector and "Syphonex" proportioner to maintain bright vigorous appearance of container grown plants during their stay in the retail yard.

During a heavy rain plant foods may be leached out of light soil mixes. If plants appear dull or cease growing after rainy periods extra feeding may be necessary. i.e.: If feeding daily — double the concentration for one application — if feeding intermittantly schedule one additional application between regular feedings.

Growers of nursery or greenhouse plants should obtain specific feeding programs to meet individual needs of soil mix and cultural practices.

	Fertilizing Schedule	For Measure Mix Injector Model R3 Ratio 1 to 100	For Syphonex Ratio 1 to 16
Rapid Gro 23 - 21 - 17 Contains 11 vital elements plus vitamins and growth hormones	DAILY or each irrigation	3.78 Oz. per Gal. 7 Lbs. in 30 Gals.	.6 Oz. per Gal. 17 Oz. in 30 Gals.

WILT-PRUF

Wilt-Pruf anti-transpirant protects plants against wilting due to transplanting shock, drouth, winter-kill or summer scald. Dahlia Tubers and Canna Roots keep perfectly after being dipped in Wilt-Pruf solution. Cuttings, seedlings and indoor plants can be efficiently protected against drying out. Wilt-Pruf protects the freshness of cut foliage plants and Christmas trees. Prevents winter-kill and winter-burn of evergreens, roses and shrubs in the garden. Packaged in gallons, 5-gallon and 30-gallons for commercial use or in 8 Oz readimix or pint and quart concentrates for resale to gardeners.

Quart	$2.40 Each

BUILD GREENHOUSES with

UNION CARBIDE

VisQueen TRADE MARK **FILM**

ECONOMICAL

EASY TO BUILD

LOW UPKEEP COST

20 TIMES CHEAPER!

The cost of materials to build an average greenhouse (18′ x 84′), using VISQUEEN film, amounts to only $200 to $250—while a glass greenhouse of the same size would cost about $4,000!

"VISQUEEN" GIVES YOU:

Lower temperatures under direct sunlight—less moisture loss, reducing frequency of watering.

Lower heat loss—means lower heating costs. (And costs are lowered even more if VISQUEEN film is used as an inside lining too!)

VENTILATION

VISQUEEN film handles ventilation too! Good ventilation may be had by lowering the VISQUEEN film 4-8 inches from the eve plate on the sides and not nailing the lath at these points.

Both the inside and outside layers can be pinned together by short lath and raised and lowered together.

VISQUEEN film goes right into the ground. There are no side walls needed. Supporting side posts and sash bars can be treated with preservative.

HEATING

Any type of greenhouse heat can be used and VISQUEEN film enables you to save on fuel costs! Heat otherwise lost through cracked panes, air gaps, etc., is now contained for a longer period — and VISQUEEN film lets you maintain the best temperatures at all times!

Get more information and plans for VISQUEEN film greenhouses from your dealers.
